Multiway Robotics

___Series

Counterbalanced Forklift

E30-B/E35-B/E40-B E30-L/E35-L

Introduction

Counterbalanced Forklift AGV E series is applicable to automatic transfer and handling of goods on two-way or four-way entry pallets between different storage locations. With a load capacity of up to 4000 kg, a lifting height of up to 6600 mm, E series features a fast driving speed, good climbing capability, and high load capacity. E series is widely used in various scenarios including goods stacking, equipment docking, horizontal handling, high-level storage and truck loading/unloading.

Features

Environment Adaptive

With laser navigation and positioning, there's no need to renovate the on-site environment.

Non-stop pallet pose identification

Visual perception non-stop pallet pose identification can realize fast and accurate pick-and-place of goods.

Highly Intelligent

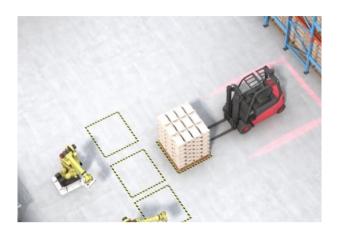

A whole range of functions such as mapping, path planning, auto-charging, and intelligent operations for various scenarios.

Intelligent Safety

Comprehensive fault self-detection 360° obstacle avoidance and sound & light warning.

Scenarios

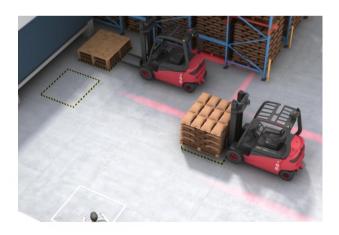

Docking with Production Line

Efficient automatic transportation and turnover from the warehouse to the buffer area and production line zone.

Automatic (Un)Loading

Compatible multiple models (wing door, flat door). Compatible with multiple sizes of cargo (automatic allocation).

Horizontal Handling

Supports flexible transportation for various scenarios, including docking with storage locations and stacker warehouses transferring.

Intelligent Handling

Load range between 3T to 4T, and the lifting height can reach 6.6m, which supports flexible handling in multiple scenarios such as line side warehouses, temporary storage areas, and ground storage warehouses.

Multiway Robotics

Specifications

	Model	E30-B	E35-B	E40-B				
	Navigation	Laser/ Sky Navigation/ Mixed Navigation						
	Communication	Wi-Fi/ 5G/ Optical Communication						
	Driving Features	Forward, Reverse, and Turn						
	Control Mode	Auto/Manual						
	Rated Load Q (kg)	3000	3500	4000				
	Load Center C (mm)		500					
asic arameter	Weight (Including battery) (kg)	5250	5380	5950				
arameter	Turning Radius Wa (mm)		2200					
	Aisle Width (mm)		4400					
	Maximum Lifting Height (mm)		6000					
	Dimensions L×W×H (mm)		3810x1410x (1950~2820)					
	Fork Dimensions Ixexs (mm)	1070/125/45	1070/125/45 1070x125x50					
	Fork Rack Width b2 (mm)	1100						
	Fork Outer Space b3 (mm)	280~1100						
	Minimum Height of Fork From the Ground h6 (mm)	60±5						
	Positioning precision/ Stop Angle (Center of bearing wheel) (mm)		±20					
	Obstacle Clearing Capability		≤10					
	Climbing Capacity		≤7° (13%)					
lovement pecifications	Cross-Groove Capability (mm)		≤30					
pecifications	Max Driving Speed (No Load/Full Load) (m/s)		2/2.5					
	Max Lifting Speed (No Load/Full Load) (mm/s)		260/350					
	Max Descent Speed (No Load/Full Load) (mm/s)	280/350	300/450	240/350				
	Max Climb Capability (No Load/Full Load) (S2-5min) % (tanθ)		5/5					
	Battery Voltage/Capacity (V/Ah)	80V/450AH						
	Charging Mode	Auto/Manual						
attery pecifications	Run time		8~10h					
	Battery Life	Comple	ete charge-discharge 2500 time	es ≥70%				

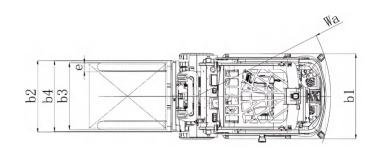

Note: In the real-time update of product parameters, the above parameters are for reference only and shall prevail.

Comprehensive safety protection:

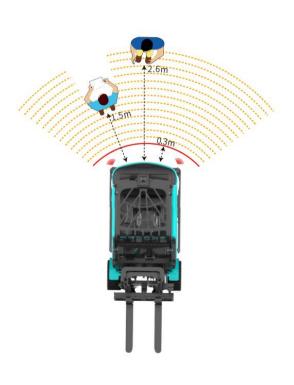

Sound perception + obstacle avoidance + touch reception, 360° omnidirectional three-layer protection

Point Cloud Obstacle Avoidance:

The forward simulation algorithm can measure the distance to obstacles, autonomously plan the moving speed, ensure the vehicle accelerates and decelerates smoothly without sudden changes in speed.

Multiway Robotics

Multiway Robotics, a leading intelligent intralogistics solution provider, with the mission of "Establish a new and efficient employment mode", is dedicated to drive continuous upgrades in social productive forces.

Global headquarter and laboratory are located in Shenzhen, China, with production facilities in Hefei. Multiway has also established sub sidiaries in the United States, Germany, Japan, South Korea, and more, extending business, operations, and services to 30+ countries and regions worldwide. Focusing on advanced robotics and AI technology, Multiway Robotics is committed to delivering cutting-edge intelligent manufacturing and smart logistics solutions to our customers. Multiway offers a comprehensive, integrated innovation delivery platform and solutions, ranging from core sensors and algorithms to self-developed unmanned forklifts and upper-level control systems. Hardware products include a full range of unmanned forklifts and four-way shuttle, while software systems encompass Multiway Cloud, WMS, RCS, WCS, on-site management systems, and various visual solutions.

After successfully delivering numerous benchmark projects in industries such as factories, warehousing, and logistics, Multiway has become a trusted and ongoing collaborative partner for many industry-leading customers.
